

## ICCG-11 The Hague, 1995

### **Report on the meetings of the IOCG Executive Committee, Council and General Assembly held during ICCG-11 in The Hague, The Netherlands, 18-23 June 1995**

The IOCG Executive Committee, Council and General Assembly met respectively on 19, 20 and 22 June 1995. The following resolutions were approved unanimously:

1. That the Brazilian Society for Crystal Growth, the Czech and Slovak Association for Crystal Growth and the Romanian Materials Science Crystal Growth Society should be formally accepted into IOCG, all three associations having agreed to abide by the IOCG Constitution.

2. That the offer made by the Japanese Association for Crystal Growth to hold ISSCG-13 and ICCG-11 during 2001 should be accepted. The offer made by the CIS Association for Crystal Growth to hold an ICCG in Moscow at an, as yet unspecified date in the future was noted.

3. That the second ratification of the constitutional amendments made at ICCG-10 in San Diego, 1992, as scheduled in the Proceedings of that meeting (J. Crystal Growth 128 (1993) 1293-1296) be approved. It was noted that a third and final ratification will be required at ICCG-12.

4. That the new President and Executive Committee should be asked to explore:

a. The possibility of IOCG becoming an International Scientific Associate affiliated to ICSU, with a possible change of name to International Union for Crystal Growth, since IOCG now appears to satisfy the admission criteria.

b. Ways of raising funds appropriate for IOCG activities, including (a) above. c. Required amendments to the IOCG Constitution to cover (a) and (b) above.

5. That an honorary post should be created on the Executive Committee entitled "Honorary Principal Founder IOCG" for the period 1995-1998 for the retiring Secretary and Principal Founder of IOCG, Michael Schieber in recognition of his distinguished service to this organisation.

6. That the Treasurer's Report, presented verbally by E. Kaldis, should be accepted. The account was transferred from the USA to Switzerland on 1 September 1993 as 6447.14\$, equivalent to 9396.40SFr. The only expenditure has been the newly requested 100\$ per annum as subscription to IUPAC. Interest on the account had more than compensated for this expenditure so that the current balance is 9540.90SFr.

7. That the following slate of Officers, the Executive Committee Members and Councillors be elected for the period 1995-1998 to hold office from the end of ICCG-11 through ICCG-12; the list includes five Councillors elected from the floor of the General Assembly to represent those nations who do not, as yet, have a national association.
