

**Report on the Meetings of the IOCG Executive Committee, Council and
General Assembly held during ICCG-13/ICVGE-11 in Kyoto, Japan
30 July–4 August 2001**

The IOCG Executive Committee, Council and General Assembly were held respectively on 31 July, 1 and 2 August 2001. The following items were approved:

1. The offers made by the American Association for Crystal Growth to hold ICCG-15 during 2007 and to hold ISSCG-13 during the same year should be accepted. It was strongly recommended that these two events should be closely held both in time and in location.
2. The President and Executive Committee should be asked to explore ways of raising funds to increase the IOCG activities, including the formation of internet communication system and to make necessary amendments to the IOCG Constitution.
3. The Treasurer's Report, presented by C.F. Woensdregt, should be accepted. The account was on 22 June 1998 as 9708.90 SFr. The expenditures have been requested 411.25 SFr for two year subscription to IUPAC and tax for three years. Interest on the account had less than compensated for this expenditure so that the current balance is 9678.55 SFr.
4. The following slate of Officers, the Executive Committee Members and Councilors be elected for the period 2001–2004 to hold office from the end of ICCG-13 though ICCG-14; the list includes five Councilors elected from the floor of the General Assembly to represent those who do not, as yet, have a national association.
