4) **Promotion and coordination of regional meetings**
   
   IOCG was actively involved in the organization of the following 17 meetings:

   III. Mechanisms and Non-Linear Problems of Nucleation and Growth of Crystals and Thin Films, St. Petersburg, Russia, 1-5 July 2019

   IV. 3rd German Polish Conference on Crystal Growth (GPCCG-3), Poznań University of Technology, Poznań, Poland March 17-21, 2019

   VII. International Workshop on Modeling in Crystal Growth (IWMCG-9), Big Island, Hawaii, USA, October 21-24, 2018.

II. Bulgarian delegates informed that the FUURE Bulgarian association for crystal growth is willing to join IOCG.
III. French delegates informed that the last Groupe Français de Croissance Cristalline (GFCC) was changed to the French Committee for Crystal Growth (CFCC, Comité Français de Croissance Cristalline).

4) Support to ICCGE-19 and ISSCG-17
President and Executive Committee have been constantly in contact with the American organizers of ICCGE-19 and ISSCG-17, providing advices and inputs in order to set up the scientific program, advertise the meeting and get the IUCR sponsorship.

- Promotion and coordination of regional and topical Meetings on Crystal Growth
- Establish a dialog with other organization to cooperate on new promising research fields (graphene, biological crystallization, new semiconductors, etc.).
- Support to organization of ICCGE-20 and ISSCG-18 in Italy.
- Update of IOCG website and statistics of the visit/downloads.
- Education. Promote international and regional schools “where the potential students
are”. Support to existing permanent educational activities.
